Teacher Sheet: Raptors Along the Road

 ✓Nestlings
 ✓Fledglings

During the field trip, scan fences, telephone poles, trees, and the sky for raptors. Record your observations below.

Raptor Name	Description (behavior, field marks, body shape)
American Kestrel	<i>Small raptor sitting a telephone wire</i>
Northern Harrier	<i>Coursing in the meadow next to the road</i>
Red-tailed Hawk	<i>Sitting on a telephone line post</i>
Bald Eagle	<i>Soaring above</i>

Use the space below to sketch any bird(s) that you observe. Include any observations you have about the wings, bills, feet, plumage (feather colors), and flight.
